$g_{\mu\nu}$: **Metric Tensor**
Defines the background framework and structural grid lines of the spacetime fabric.
$T_{\mu\nu}$: **Stress-Energy Tensor**
Represents the mass-energy density source located at the absolute gravitational core.
$R_{\mu\nu}, R$: **Ricci Curvature**
Measures the local geometric bending and funnel depth profile of the coordinates.
$\frac{8\pi G}{c^4}$: **Einstein Coupling Constant**
Acts as the scaling factor dictating the structural stiffness of the spacetime grid.
$$\underbrace{R_{\mu\nu} - \frac{1}{2} R\, g_{\mu\nu}}_{\text{Spacetime Geometry (Left Side)}} = \underbrace{\frac{8\pi G}{c^4} T_{\mu\nu}}_{\text{Energy Source (Right Side)}}$$
